SUNNY TRIPOWER 60

Efficient

- Maximum efficiency of 98.8%
- Superior power density:
 60 kW with only 75 kg of weight

Reliable

- Superior PV system availability with 60-kW units
- SMA Inverter Manager as central control unit

Flexible

- DC input voltage of up to 1000 V
- Flexible DC solutions with customer-specific PV array combiner boxes

Innovative

• Cutting-edge system design

SUNNY TRIPOWER 60

The Best of Two Worlds

The new Sunny Tripower 60 is part of an innovative global system solution for commercial and industrial PV systems. This solution combines the advantages of a decentralized system layout with the benefits of centralized inverter designs in order to get the best of two worlds. High efficiency, flexible system design, easy installation, simple commissioning and low maintenance requirements contribute decisively to reducing the operating costs for the entire system.

SUNNY TRIPOWER 60

| Technical Data | SMA Inverter Manager |
|--|---|
| Voltage supply | |
| Input voltage | 9 to 36 Vdc |
| Power consumption | < 20 W |
| General data | |
| Dimensions (W/H/D) | 160 / 125 / 49 mm (6.3 / 4.9 / 1.9 inches) |
| Weight | 940 g (2 lbs) |
| Maximum allowed number of inverters | 42 |
| Degree of protection | IP21 |
| Mounting | DIN top-hat rails or wall mounting |
| Operating temperature range | -40 °C to +75 °C (-40° F to +167° F) |
| Relative humidity (non-condensing) | 5 % to 95 % |
| Interfaces | |
| PC user interface | LCS tool |
| Sensor interface / protocol | RS485 / Modbus RTU for Sunspec Alliance compatible weather station |
| Interface to inverter | 1 Ethernet port (RJ45) |
| Interface for external network / protocol | 1 Ethernet port (RJ45) / Modbus TCP, SunSpec Alliance |
| Interface to remote control | 6 x DI via external SMA Digital I/O Box |
| Certificates and approvals (more available upon request) | UL 508, UL 60950-1, CSA C22.2 No. 60950-1-07, EN 60950-1, EN 55022 Class A, EN 61000-3-2 Class D, EN 61000-3-3, EN 55024, FCC Part 15, Sub-part B Class A |
| | |
| SMA Inverter Manager type designation | IM-10 |
| SMA Digital I/O Box type designation | IM-DIO-10 |

● Standard features ○ Optional − Not available
Data at nominal conditions
Last revision: December 2015

| Technical Data | Sunny Tripower 60 |
|--|---|
| Input (DC) | |
| Max. DC power (where cos φ = 1) / rated power (DC) | 61240 W / 61240 W |
| Max. input voltage | 1000 V |
| MPP voltage range (at 400 Vac / 480 Vac) | 570 V to 800 V / 685 V to 800 V |
| Min. input voltage (at 400 Vac / 480 Vac) | 565 V / 680 V |
| Start input voltage (at 400 Vac / 480 Vac) | 600 V / 720 V |
| Max. input current / max. short-circuit current | 110 A / 150 A |
| Number of independent MPP inputs/strings per MPP input | 1/1 (split up in external combiner box) |
| Rated DC input voltage (at 400 Vac / 480 Vac) Output (AC) | 630 V / 710 V |
| Rated power at nominal voltage | 60000 W |
| Max. apparent AC power | 60000 VA |
| Max. reactive power | 60000 Var |
| Nominal AC voltage | 3 / PE, 400 V to 480 V, ±10 % |
| AC voltage range | 360 V to 530 V |
| | 50 Hz / 44 Hz to 55 Hz |
| AC power frequency/range | 60 Hz / 54 Hz to 65 Hz |
| Rated power frequency/rated grid voltage | 50 Hz / 400 V |
| Max. output current (at 400 Vac / 480 Vac) / rated output current | 87 A / 72 A / 87 A |
| Power factor at rated power / displacement power factor adjustable | 1 / 0 overexcited to 0 underexcited |
| THD | ≤ 1 % |
| Feed-in phases/connection phases | 3 / 3 |
| Efficiency | |
| Max. efficiency / Euro-eta / CEC at 400 Vac / CEC at 480 Vac | 98.8 % / 98.3 % / 98.0 % / 98.5 % |
| Protective devices | |
| Input-side disconnection point | • |
| Ground fault monitoring/grid monitoring | •/• |
| Integrable DC surge arrester / AC surge arrester | Type II / type II + III (combined) |
| AC short-circuit current capability / galvanically isolated | • / - |
| All-pole sensitive residual-current monitoring unit | • |
| Protection class (as per IEC 62109-1) / overvoltage category (as per IEC 62109-1) General data | I / AC: III; DC: II |
| Dimensions (W/H/D) | 570 / 740 / 300 mm (22.4 / 29.1 / 11.8 inches) |
| Weight | 75 kg (165.3 lb) |
| Operating temperature range | -25°C to +60°C (-13°F to +140°F) |
| Noise emission, typical | 58 dB(A) |
| Self-consumption (at night) | < 3 W |
| Topology / cooling concept | Transformerless / active |
| Degree of protection (according to IEC 60529 / UL 50E) | IP65 / NEMA 3R |
| Climatic category (as per IEC 60721-3-4) | 4K4H/4Z4/4B2/4S3/4M2/4C2 |
| Max. permissible value for relative humidity (non-condensing) | 95% |
| Features / function / accessories | |
| DC connection / AC connection | Screw terminal / screw terminal |
| Display | Graphical |
| Data interface | SunSpec Modbus TCP (via external SMA Inverter Manager) |
| Off-grid capable / PV-diesel capable | -/● |
| Warranty: 5/10/15/20/25 years | •/0/0/0/0 |
| Certificates and approvals (more available upon request) | ANRE 30, AS 4777, BDEW 2008, C10/11:2012**, CEI 0-16, CEI 0-21, DEWA 2015 |

FLEXIBLE SYSTEM DESIGN

With Maximum Efficiency

The new SMA system solution consists of four components: highly efficient inverters, the flexible combiner boxes, the central SMA Inverter Manager and the LCS commissioning tool. It is precisely this systemized approach that makes the Sunny Tripower 60 so unique and guarantees a high level of performance along with maximum flexibility in system planning and design.

Sunny Tripower 60 inverters with impressive design

No other inverter weighing only 75 kg with an output of 60 kW offers this. With its compact design, the Sunny Tripower 60 requires little space, reduces on-site preparation work, simplifies installation and lowers maintenance costs.

Innovative system management with the SMA Inverter Manager

The SMA Inverter Manager is the central communications component and sole interface for controlling the entire system. It handles all the important inverter and system management functions for up to 42 inverters in one system (up to 2.5 MW).

Based on Modbus TCP (SunSpec Alliance) Communication, it can be easily integrated into a larger communication system. Moreover, the SMA Inverter Manager provides grid management functions and exchanges data with the grid operator.

Easy commissioning with the LCS commissioning tool

The specially developed LCS tool (Local Commissioning and Service) makes commissioning easy, saves time and reduces costs. The inverter is configured by simply selecting the system-specific configuration files and then transmitting them to all inverters. Furthermore, by reading the status, current values and incidents at the inverter level can make troubleshooting and bug-fixing considerably easier.

External combiner box for flexible system design

The module strings are connected to the inverters using the external combiner boxes.* This allows the system to flexibly adapt to various regional standards and the generator configuration. This new design decisively contributes to reducing system costs.

*Different configurations can be delivered upon request
